## **SOMETHING ABOUT GREECE**

Greece is a very touristic country and it enjoys great interest among tourists every day. Especially in the summer, when the weather is great to relax in many ways. Tourists arriving at the hotel chosen by them, try regional cuisine to get to know the tastes of a given region.

# FACTORS FAVORING INVESTMENTS

With the constant influx of tourists, the demand for the development of the hotel and gastronomy sector is growing.

Investing in hotels, guesthouses, and resorts is a great idea to keep earning money. Especially in the summer period, this income is several times higher than in the off-season.

## SMALL AND LARGE BUSINESSES

Small shops such as souvenir shops are a very profitable idea in the field of tourism. Photovoltaic modules are also a common choice for many investors. The sun's rays, which are very intense in this region, are a good way to use them in a sensible and economical way.
